

## Join Us for the 3rd Summer School on Refugee and Migrant Health in Bern, Switzerland!

---

**We are excited to invite you to the 3rd Summer School on Refugee and Migrant Health, taking place from 16 to 19 September 2024 in beautiful Bern, Switzerland.**

This unique event brings together health professionals, researchers, and policymakers from around the globe to discuss and learn about the latest developments and best practices in refugee and migrant health.

### Why Attend?

- **Interdisciplinary Learning:** Engage with peers and experts from Switzerland and worldwide.
- **Innovative, Interactive Sessions:** Participate in case studies, exercises, and workshops.
- **Expert Lectures:** Gain insights from national and international specialists.
- **Network with Professionals:** Connect with others in the field during interactive learning scenarios and social events.
- **Participation in the 6th Swiss Refugee and Migrant Health Symposium:** Addressing the theme "**Reaching the Hard to Reach**".

**Course focus:** This course is ideal for healthcare providers and students seeking to improve their knowledge and skills of dermatology and sexually transmitted infections in displaced populations. We will further explore topics such as cultural competency, gender diversity and intersectionality.

## Program Highlights:

### Day 1 – Monday 16 September

- Syndromic Approaches to Skin Diseases, including sessions on Generalised and Localised Itch.
- Workshops on selected topics, Skin Plaques.

### Day 2 – Tuesday 17 September

- Malnutrition: Skin and Annexes, and Teledermatology case studies.
- Screening Assessments and a session on using technology to bridge gaps in health care.

### Day 3 – Wednesday 18 September

- Cultural Competency, Gender Diversity, and Genital Conditions.
- Workshops and sessions on Sexual and Gender-Based Violence and updates on POCT for STIs.

### Day 4 – Thursday 19 September

#### **6th Swiss Symposium on Refugee and Migrant Health: Reaching the Hard to Reach**

Provision of healthcare, Public Health Interventions and Harm Reduction Strategies for hard to reach population groups, such as undocumented migrants, homeless, drug addicts and sex workers
