

Mi-CARE Survey

Migrant Child & Adolescent health Research in Europe

If you...

- migrated to Europe as a child or teenager
- are a parent or carer who migrated with children or had children after arriving
- are a healthcare professional (doctor, nurse, social worker, psychologist, etc.) working with migrant children and teenagers
-

...then we want to know about your experiences with healthcare in Europe.

Your answers will help us create a Top 10 list of important questions for research - to improve healthcare for children and teenagers with migration experience. Participation is voluntary and anonymous and takes less than 15 minutes.

We want to hear from you!

**The survey is available in different languages.
